Applicant's amendments and remarks filed 04/20/05 have been received and reviewed.

Claims 1-6 are now pending in this application.

Claims 1-3 are allowed.

Claim Rejections - 35 USC § 112

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 4, the phrase "A pharmaceutical composition" is suggested in place of "A composition" because the composition is supposed to be a pharmaceutical composition. If not, Applicants are required to say what composition is intended. The intended composition is a pharmaceutical composition but the claim, as presented, does not reflect this.

Claims 5 and 6 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 4. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). The intended use of a composition has no patentability weight and therefore claims 5 and 6 are duplicates of claim 4. Different intended uses are given no material weight in such claims. Note *In re Tuominen* 213 USPQ 89.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
